Uploading Files to PGPUpdateA Servers

SFTP UPLOAD INSTRUCTIONS

PowerGP Online uses a secure FTP connection which means an SFTP client is required. If you do not already have a client application, PowerGP Online recommends FileZilla.
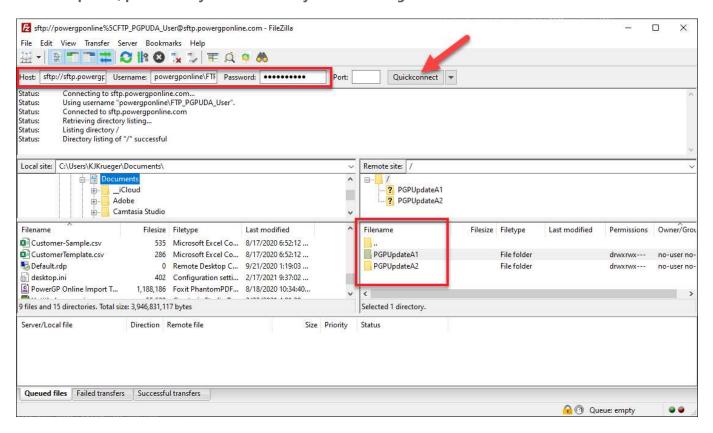

> **Host:** sftp://sftp.powergponline.com
> **Username:** powergponline\FTP_PGPUDA_User
> **Password:** T!MbkahHcVrkDFYMT!-r4sU_

On the right side, you will see a list of folders. Double-click the folder specified when you received these instructions (either A1 or A2) and place your databases and/or files in that location.

Once completed, please notify the consultant you are working with.
